

Statement of Work
RFQ Purchase Order Number EP-17-8-000006
Acquisition of the Services of a Registered Professional Reporter
to Record and Provide the EPA with a Transcript
of the Public Hearings for the
Dewey-Burdock Underground Injection Control Draft Permits
and Proposed Aquifer Exemption

Introduction

The Environmental Protection Agency (EPA) Underground Injection Control (UIC) Program intends to issue two draft permits and a proposed aquifer exemption for the proposed Dewey-Burdock uranium in-situ recovery (ISR) project located in the southern Black Hills region near Edgemont, South Dakota. The public comment period will extend from March 6 through May 19, 2017.

The EPA regulation found at 40 Code of Federal Regulations (40 CFR) § 124.12 requires the Underground Injection Control (UIC) Program Director to hold a public hearing whenever (s)he finds, on the basis of requests, a significant degree of public interest in a draft permit(s). The Director may also hold a public hearing at his or her discretion, whenever, for instance, such a hearing might clarify one or more issues involved in the permit decision. The EPA UIC Program Director has determined that there is significant public interest in the UIC draft permits prepared for the Dewey-Burdock ISR project. The Director has also determined that it would be beneficial to the public to hold a number of public hearings in order to clarify several issues involved with the proposed permit decisions.

The EPA has scheduled five (5) days of public hearings to be held on the dates at the times and locations listed in Table 1.

Background

The EPA regulation found at 40 CFR § 124.12(d) requires the EPA to provide a tape recording or written transcript of the hearing to the public. The EPA is procuring the services of a registered professional reporter to record the five (5) days of public hearings listed in Table 1 and provide a certified written transcript to the EPA in both hard copy and pdf format that will be made available to the public in order to comply with the requirements of regulation 40 CFR § 124.12(d).

Period of Performance

Date of Award through July 30, 2017

Scope

The contractor shall provide the necessary personnel, facilities and equipment, except as such facilities and equipment may be set forth as government furnished, and otherwise do all things necessary for, or incidental to creating a verbatim transcript of the proceedings for the public hearings described herein.

The EPA requires the services of a registered professional reporter to be present at each of the five (5) public hearings listed in Table 1.

Tasks

1. The set-up of recording devices and microphones as needed to record speakers standing at a podium giving oral presentations and an EPA administrative law judge seated at a table near the speaker's podium. The EPA will arrange with each venue to provide a table for the use of the reporter.
2. The transcribing of verbal testimonies given by speakers standing at the speaker's podium. The EPA administrative law judge will announce the name of each speaker being called to the podium and will request that each speaker provides his or her name and the spelling of the first and last names. The EPA administrative law judge will instruct the audience that only the designated speaker will be recorded in the official transcript.
3. Transcribing audience verbal questions and person (s) response to questions. The EPA administrative law judge may occasionally allow clarifying questions to be asked from the audience. Each question from the audience will be repeated by the administrative law judge into the reporter's microphone. The administrative law judge will direct the person(s) answering any questions to speak into the reporter's microphone.
4. Within 15 business days after the date of the last public hearing, the reporter shall provide draft transcripts of each hearing for EPA review. The EPA will have 15 business days from the receipt of the transcripts to review each draft transcript and identify any errors to be corrected by the reporter.
5. The reporter will have 10 business days after receipt of any corrected draft transcript to provide to the EPA certified copies of the transcript for each hearing.
6. Each transcript shall include a word index.
7. Each transcript shall be submitted to the EPA as one (1) original hard copy of the written transcript and one pdf file.
8. The EPA expects to handle any exhibits that are provided by public hearing attendees.
9. The cost of transcript delivery shall be paid by the contractor.

Travel

All travel shall be handled in accordance with Federal Travel Regulations.

The EPA will pay an hourly rate during the travel time for the reporter to drive to and from Valentine, Nebraska. The EPA will also provide reimbursement for the following travel costs in accordance with Federal Travel Regulations:

- a. Lodging in Valentine, Nebraska (According to FTR, the current maximum lodging rate for this location is \$91.00 per day)
- b. Meals & Incidental Expenses (M&IE) in Valentine, Nebraska (According to FTR, the current M&IE for this location is \$51.00 per day. On the first and last day of travel, M&IE shall not exceed \$38.25 per day).
- c. Roundtrip travel mileage to and from Valentine, Nebraska. (At this time, the current allowable per mile rate is \$.535 per mile)

Table 1. The dates, times, and locations of the five public hearings the EPA plans to hold for the UIC draft permits and proposed aquifer exemption for the proposed Dewey-Burdock uranium ISR site.

| Date and Time | Location |
|--|---|
| <u>Thursday, April 27, 2017</u> from 4:00 to 8:30 p.m. (with a break from 6:00 to 6:30 p.m.) | Niobrara Lodge 803 US Highway 20 Valentine, Nebraska 69201 |
